We would like to thank all of our loyal clients who have supported us over the years. Thank you for choosing Dermavita for your skin care and medical procedures. It is our hope that we earn your trust and respect as we build our reputation based on honesty and integrity.

## CONVENIENT SCHEDULING

The staff at Dermavita is dedicated to helping you achieve your skin care goals. If you haven't been to Dermavita in awhile, it's time to come and see us. Our growth reflects our added services to you through new concept skin care treatments, products and an updated facility. We have become one of the leading skin care clinics and medispas in the greater Seattle area since 1992. All of our treatments have the same performance standard and we welcome our clients to see any member of our staff. During this busy summer season, we know your time is very valuable and we would like to do everything we can to accommodate your schedule. For your convenience, Dermavita is now open on Sundays, 10am – 4pm. Enjoy free parking on Sundays in Downtown Kirkland.

## FATHERS' DAY: June 15th

Treat the very special men in your life with a relaxing and uplifting Gentleman's Escape gift package. (\$170)

This is a perfect package for a man-on-the-go to escape the pressures of the day. Let him unwind with a Deep Tissue Massage that relieves muscle aches and tension. A deep pore-cleansing facial leaves the skin exceptionally clean, healthy-looking and polished.

## THIS SUMMER SEASON

### ANTI-AGING HAND CREAM with SPF 20

This revolutionary non-greasy hand treatment is the first ever product to combine Retinol, SPF 20 sunscreen and Gatuline Whitening (a complex lightening ingredient derived by fermentation of Kojic and Lactic acids with licorice extract). It has proven effective to fade dark spots as well as providing maximum sun protection. Vitamin A and other antioxidants simultaneously moisturize hands and strengthen nails. Price \$20, 4oz.

## CHILDPROOF YOUR SUMMER: SUNSCREEN

Get serious about sunscreen. If you haven't yet succeeded at training your kids to use sunscreen, new research adds some heat. A team at the University of North Carolina has linked a high cumulative level of sun exposure between infancy and age 20 with the development of a mutation known as braf in the skin cancer gene, which accounts for about half of all melanomas, the most dangerous form of skin cancer. Kids of all ages should always use sunscreen that protects against both UVB and UVA radiation.

While the sun-protection factor measures UVB protection, there is not yet a rating system for UVA coverage. Look at the list of ingredients for sunscreens containing the highly effective UVA blocker – Mexoryl SX or titanium dioxide, zinc oxide or avobenzone, all of which block both types of rays.

## SUMMER SPECIALS

### Thermage Special ❖

Take advantage of this limited time special. Have your Thermage treatment \$250 off of the regular price with an additional complimentary pre-Thermage Microdermabrasion treatment (valued at \$125). Look more youthful and feel more confident. Schedule a complimentary consultation to assess if Thermage is right for you. Offer ends July 31.

### Laser Hair Removal Special ❖

Purchase a series of 3 treatments in advance and save 20%. Call today and schedule an appointment. Offer ends Aug 31.

### 10% Off Clarisonic Brush ❖

The Clarisonic brush deeply cleanses while gently exfoliating the surface of the skin, clearing pores for better absorption of vital nutrients from your skin care products. Offer ends July 31.

### Save \$100 on a Series of 6 Microdermabrasion Treatments ❖

Our gentle skin resurfacing treatment removes the topical layers of the skin and stimulates the production of new cells and skin firming collagen. It improves skin tone, helps with scarring, reduces facial lines, and minimizes pore size. Our treatments are finished with a hydrating, calming mask that leaves your skin looking radiant and rejuvenated. 6 treatments are recommended for optimal results. Offer ends Aug 31.

### Injectables Day – June 25, Wed 11am-6pm ❖

Our qualified medical staff will perform all injectable procedures at 15% off the regular price. Please call to make a reservation, as space is limited (425.739.0808).

# NEW generation of SKIN REJUVENATION

**THERMAGE:** The #1 most popular procedure for non-invasive skin tightening just got better. Trends come and go, but one thing that seems to stay the same is the desire for non-invasive alternatives to cosmetic surgery. As a result Thermage, the “non-surgical face-lift,” is making headlines in newspapers and women’s magazines.

Thermage is an excellent choice for skin tightening when creams are not enough and surgery is too much. It could also be a good alternative for those who want a more predictable and natural look, those who may not be a candidate for plastic surgery, or those who don’t have the option for taking time to recover after a face lift.

The updated Thermacool technology offers a better result and less discomfort. It delivers immediate visible tightening after a single in-clinic treatment with continued improvement for the months that follow. During the procedure a handheld device is pressed against the skin to safely deliver heat deep beneath the skin’s surface (radiofrequency technology). The heat tightens the existing collagen and helps stimulate new collagen growth to reduce sagging, renew contours, and improve the smoothness and texture of the skin’s surface.

Now we are able to introduce Thermage as a separate treatment for eyes and lips, or for contouring and tightening the body. Thermage is the only medical device to have an FDA clearance for the non-invasive treatment of the upper and lower eyelids.

For the right candidate the results are remarkable. Injection of dermal fillers or Botox may be recommended to attain an optimum result of skin rejuvenation.

## Thermage RESULTS

### EYES

Tighter, smoother skin on the eyelids  
Reduced hooding  
Smoother contour around the eye  
Softening of fine lines and crow’s feet

### FACE

Smoother and tighter skin  
Contouring along the jaw line and under the chin  
Softening of wrinkles around the mouth, eyes, and forehead

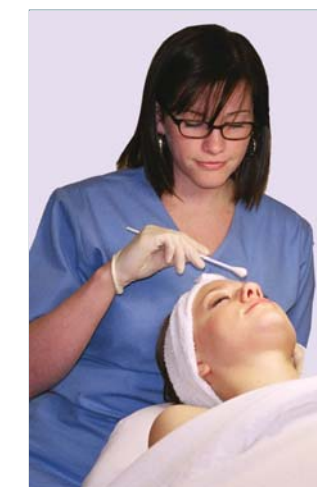

### BODY

Tightening of loose, sagging skin – on arms or tummy (perfect for those recovering from pregnancy, liposuction or significant weight loss)  
Improved texture and tone  
Improved cellulite  
Reduced crepiness

# HOW CAN I CONTROL MY ACNE?

Acne is the disorder of the follicle evolving from the buildup of dead skin cells and the increased amount of oil that stick together and clog the pores of genetically indicated individuals. The acne bacteria, Propionibacterium (commonly referred to as P. bacterium), feed off this combination, leading to acne breakouts and inflammation. If the condition is left untreated it can worsen to a more serious stage that causes scarring and emotional discomfort. However, there are many ways to successfully keep acne under control, prevent scarring and keep the skin clear without the use of harsh medications.

We have treated hundreds of such cases that have proved the success of our acne program. Let our certified skin care specialists guide you to the products that can provide you with optimal results. Each specialist is dedicated to helping you to achieve the healthiest skin possible. They will advise you on what your skin care needs are.

View Dermavita client testimonials at CitySearch.com, or share your own success story on this website.

### Dermavita BPO-Benzoyl Peroxide

A specialized acne-fighting therapy that kills the bacteria which causes acne and exfoliates the skin improving the complexion.

### Dermavita Sulfur Mask

A clay based mask that deeply cleanses the pores removing excess oil and blackheads. This product is an integral part of acne treatment. It can be used once or twice a week as a booster for an at-home treatment.

### Dermavita Salicylic Acid

A gel based acne treatment designed for optimum care of oil prone or acne prone skin. It helps clarify the skin, control oil production, exfoliate, decongest pores and prevent new breakouts.

Consult with your esthetician to find out which products are suitable for your particular skin condition.

# MONTHLY SEMINARS

We like to keep our patients informed of the newest and groundbreaking technologies that we utilize in our medical spa. Anyone interested in the art of cosmetic procedures is encouraged to attend our complimentary seminars. Meet our experienced medical staff and get the information you need to make an informed decision.

June 26 Thurs 7:30pm:  
**A PERMANENT SOLUTION ❖**

Explore the benefits of permanent makeup with Kathryn Hampton, Licensed Permanent Makeup Artist. Learn about the procedure, techniques, color selection and healing process. Ask questions and view Kathryn’s portfolio displaying before-and-after pictures. Receive a complimentary brow design and product samples.

June 27 Friday 7:30pm:  
**BREAST AND BODY CONTOURING ❖**

Dr. Marosan will discuss technologies on breast augmentation, short scar lifts and reductions, body contouring with liposuction by VASER technique, tummy tucks, and body contouring after massive weight loss. Dr. Marosan will offer complimentary plastic surgery consultations (\$100 value) for all participants.

July 24 Thurs 7:30pm:  
**HAVE CLEAR SKIN FOR LIFE ❖**

Keep acne under control without the use of drugs. Learn how genetics, stress, diet, and over-the-counter products can aggravate your acne-prone condition. Magdalena Witt, Acne Specialist, will explain how our simple acne program is proven to be effective for adults and teenagers with mild to severe acne. Participants will receive a complimentary consultation and product samples.

August 20 Wed 7:30pm:  
**NON-SURGICAL FACIAL REJUVENATION ❖**

Dr. Marosan will discuss the uses of Botox, the newest dermal fillers, laser treatments, Thermage and any questions you might have about new technologies reported in the media. After the seminar we will offer 20% off Botox and dermal fillers for interested clients.

# New Products: ANTI-AGING FORMULA

VitaMedica’s Anti-Aging Formula is designed for individuals who want to actively manage the aging process by providing the key nutrients to support youthful-looking skin.

Each convenient AM daily packet includes:

### AM Multi-Nutrient Formula

(2 tablets) – Formulated to provide energy and support activity levels throughout the day. Key nutrients include vitamins A, C and E to support overall skin health. Features the B-complex including biotin and pantothenic acid to support healthy hair, skin and nails.

### Broad Spectrum Antioxidant

(1 capsule) – Formulated with a broad range of antioxidants to provide protection against multiple types of free-radicals. Contains nutrients with dermal antioxidant properties including green tea, grape seed extract, ginkgo biloba, milk thistle, alpha lipoic acid, lutein and cysteine. B-complex including biotin and pantothenic acid to support healthy hair, skin and nails.

Each convenient PM daily packet includes:

### PM Multi-Nutrient Formula

(2 tablets) – Formulated to support rest and relaxation during the evening. Includes 500 mg of calcium and other bone supporting nutrients like magnesium, boron, and vitamins D and K.

### Flax Seed Oil

(1 softgel capsule) – Flax seed oil is an excellent source of Omega-3 essential fatty acids (EFAs). EFAs are a fundamental component of the cellular membrane of all skin cells. Because of the rapid turnover of cells in the dermis, an adequate supply of EFAs is essential for healthy looking skin.
